Introduction

Zhucheng Yide Machinery manufactures and exports a broad range of high-quality packaging machines for virtually every application (food and non-food). We produce packaging machines for both high-speed and low-volume applications. While having the ability and experiences to provide integrated packaging solutions for grown businesses, we are happy to supply entry-level packaging machines for business starters. If you don't find exactly what you are looking for in this catalog, please don't hesitate to ask us about our custom manufacturing capabilities with your specified requirements.

Yide Machinery offers what we believe to be the widest range of packaging equipment and related materials. Generally speaking, we manufacture much more than packaging machines: We deliver dependable, packaging solutions that are built to last. Should you require something unique, you are invited to contact us for a solution to solve your most demanding packaging challenge. If you require dependable, long-lasting, flexible packaging solutions, Yide Machinery can give you a competitive edge.

Partnership

Partnership is one of the true critical factor in business. Yide Machinery is striving to expand our business worldwidely. Meanwhile, we'd love to share the effort and spirit with potential partners.

We need distributors as well as service providers as local technical support team. It's highly expected that you are familiar with food processing machines, packaging machines, and can do on-site installation, maintenance services.

1. Distributor. You can buy our products for resale at your local market. OEM service available.
2. **Service provider (preferred)**. You don't need to sell any products, but only work as a local support team.

When our customers need a service, you provide the service at your price. No matter you are a service company or single person, please let us know if you can do the job.

THANK YOU
