

China Professional Supplier for Cling Film
Wrapping Machines

Zhucheng Yide Machinery Co., Ltd.

Cling film wrapping

Cling film wrapping is a very popular packaging method that applies food-grade PE or PVC film to wrap the food products to facilitate transportation, storage and selling.

Cling film wrapping can be used for the packaging of fresh fruits and vegetables, meat products, fish and seafood products, agricultural produces, dairy and cheese products, ready meals, etc.

AlltoPack supplies all kinds of automatic cling film wrapping machines with various capacities and prices. If you have any inquiry, please don't hesitate to contact us at any time.

Tabletop cling film wrapping machine

Model number	LTW X1
Total power	460 W
Power supply	Single phase, 220V, 50/60HZ, can customize
Packaging speed	10-12 packs/minute
Package length	80-280 mm
Package width	90-200 mm
Package height	10-150 mm
Cling film width	250-450 mm
Cling film roll diameter	≤160mm
Machine dimension and weight	668*696*696 mm, 63 KGs
Dimension and weight in wooden case	800*750*900 mm, 100 KGs
Price (FOB)	1. USD 3650.00/set (1 set) 2. USD 2780.00/set (2 sets and more)

Vertical cling film wrapping machine

There are 2 types of vertical cling film wrapping machine: LTW500 and LTW500A. They have the same specifications, except that there's a weighing & labeling device on LTW500A.

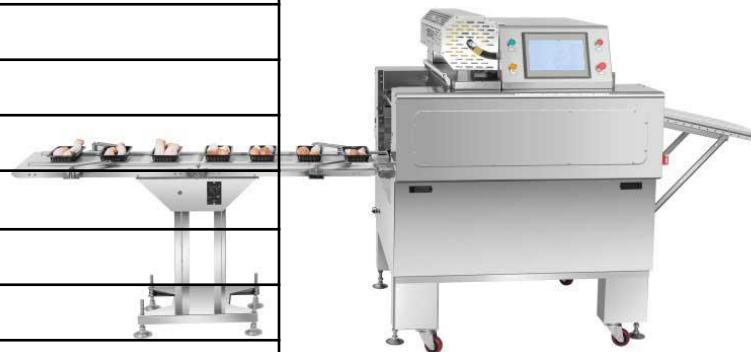

Model number	LTW500
Total power	1800 W
Power supply	Single phase, 220V, 50/60HZ, can customize
Packaging speed	About 15 packs/minute
Package length	80-350 mm
Package width	80-270 mm
Package height	10-170 mm
Package weight	40-3000 grams
Cling film width	350-500 mm
Cling film roll diameter	≤160mm
Machine dimension and weight	988*736*1262 mm, 200 KGs
Dimension and weight in wooden case	1050*800*1430 mm, 260 KGs
Price (FOB)	1. USD 11500.00/set for LTW500 2. USD 12500.00/set for LTW500A, which includes automatic weighing and labeling device.

Inline cling film wrapping machine LTW550 series

There are 2 types of inline cling film wrapping machine: LTW550A and LTW50B. They have the same specifications, except that LTW550A can only pack products in trays, while LTW550B can pack products both in trays and not in trays.

Model number	LTW550
Total power	1400-1500 W
Power supply	Single phase, 220V, 50/60HZ, can customize
Packaging speed	About 25 packs/minute
Package length	120-350 mm
Package width	95-220 mm
Package height	10-130 mm
Package weight	50-4500 grams
Cling film width	350-550 mm
Cling film roll diameter	≤160mm
LTW550A dimension and weight	1679*1014*1372 mm, 275KGs Infeed conveyor belt 1502*300*707 mm, 32 KGs
	In wooden case: 1310*1080*1510 mm, 345 KGs Infeed conveyor belt 560*680*880 mm, 52 KGs
LTW550B dimension and weight	1619*1014*1372 mm, 205 KGs Infeed conveyor belt 2400*350*736 mm, 100 KGs
	In wooden case: 1310*1080*1510 mm, 275 KGs Infeed conveyor belt 2420*620*520 mm, 130 KGs
Price (FOB)	1. LTW550A: USD22500.00 2. LTW550B: USD25000.00

Please note that LTW550 wrapping machine doesn't contain Weighing & labeling device. But you can connect to such a device very easy.

Why choose our cling film wrapping machines

Automatic cling film wrapping machine enables automatic wrapping and cling film cutting, so the packaging speed is highly improved compared to manual type cling film wrapping machine. Our automatic wrapping machines could be a perfect packaging solution for your business because of their competitive advantages:

1. Our cling film wrapping machines can pack larger food products, and compatible with wider cling film roll
2. Our cling film wrapping machines are compatible with more types of cling films, including PE and PVC films made in China or other brands
3. Our wrapping machines are made of stainless steel for longer service life
4. Our inline type wrapping machines LTW550 series use independent weighing & labeling machine. Customers can choose not to use weighing & labeling machine to save cost, or buy the weighing & labeling machine from anywhere.
5. Recommended work environment temperature is 5-35°C, humidity 10%-90%RH

About us

About Yide Machinery

Zhucheng Yide Machinery is a professional manufacturer of various food packaging machines from China. We are proud to provide a full range of vacuum packaging machines, MAP machines, VSP vacuum skin packaging machines and cling film wrapping machines that can help you and thousands of food business owners in various industries and countries. We supply industrial grade food packaging machines from the smallest tabletop type to large automatic inline types.
